09.2013 - 05.2017 Electronic Technical High School of Heroes of Westerplatte

Profile: Information Technology

#### INTERESTS & HOBBIES

I am passionate about cinema. I love watching movies from the 60s and modern ones. Undoubtedly, my interests also include sports (following the Premier League, Bundesliga and La Ligia games), music (Rock, Pop, classical music), learning new technologies and, recently, history. In my spare time I enjoy reading and create my own blog on learning programming. In the future, I would like to develop it a bit better to help beginners find their first job in IT.

I hereby consent to my personal data being processed by (company name) for the purpose of considering my application for the vacancy advertised under reference number (123XX6 etc.) and for the purpose of the future recruitment processes.
