TOMASZ KUNDYS

- FRONTEND DEVELOPER -

" My name is Tomasz. I was born and I live in Radom.
I had just finished my studies at Kazmierz Pułaski University of Technology and Humanities in Radom. I obtained an engineer's degree.
I am currently looking for my first job in IT as a Junior Front-End Developer, where I could gain the necessary experience. At the moment, I am implementing individual projects. Some of them you can see on my Github. "

09.2013 - 05.2017

Electronic Technical High School of Heroes of Westerplatte
Profile: Information Technology

INTERESTS & HOBBIES

I am passionate about cinema. I love watching movies from the 60s and modern ones. Undoubtedly, my interests also include sports (following the Premier League, Bundesliga and La Ligia games), music (Rock, Pop, classical music), learning new technologies and, recently, history. In my spare time I enjoy reading and create my own blog on learning programming. In the future, I would like to develop it a bit better to help beginners find their first job in IT.
